**RADIA NAMES BRYAN MUELLER  
CHIEF OPERATIONS OFFICER**

**Everett, Wash. --** Radia, the largest private radiology/vascular practice in the Pacific Northwest, named Bryan Mueller Chief Operations Officer (COO).

Mueller recently served as Senior Director, Radiology and Business Development for a hospital and medical group in St. Paul, MN. For several years prior to that, he served the organization as Director, Radiology, a position he also held at Mayo Clinic in Rochester, MN. Mueller completed a Master of Health Care Administration in May 2000 at the University of Minnesota, and holds a B.S. in Nursing and B.S. in Chemistry from the University of Manitoba.

As COO, Mueller will work with physicians and management staff to handle daily operations of Radia, assisting the organization to establish growth strategies and processes, and meet and exceed business goals.

Says CEO Ellen Woodward, “I was delighted with Bryan’s decision to join Radia. He brings experience in physician-management collaboration, healthcare delivery, specifically radiology, a fresh perspective, and a bias for action. Radia’s entrepreneurial spirit and wealth of opportunities excited him and he will certainly strengthen our ability to make those opportunities become realities.”
