**RADIA PHYSICIANS NAMED “TOP DOCTORS” BY SEATTLE METROPOLITAN
MAGAZINE**

Everett, Wash. – *Seattle Metropolitan* magazine, the largest-circulation local magazine in the state, has recognized seven Radia physicians as “Top Doctors” in their field. They are:

- Joseph DeMartini, MD, Diagnostic Radiology
- Greta Go, MD, Pediatric Radiology
- Kaj Johansen, MD, Vascular Surgery, Radia Vascular Institute of the Northwest
- Mary Kelly, MD, Diagnostic Radiology, Swedish Medical Center
- William M. Marks, MD, Radiology, Swedish Medical Center
- John Overbeck, MD, Nuclear Medicine, teleRadia™
- Sanjiv Parikh, MD, Nuclear Medicine, Swedish Medical Center

In its second year, the “Top Doctors” article reflects the choices of 1,335 medical professionals who responded to the magazine’s online survey. Two-hundred ninety-six medical practitioners in 77 fields were the top vote-getters of the 8,152 doctors in 79 disciplines named by their peers -- physicians, registered nurses and nurse practitioners in King County, Bainbridge Island, Tacoma and Everett.

“It’s quite a great showing for Radia, representing ten percent of our entire physician group. We’re proud of all of our physicians, and honored to have colleagues recognize those who are outstanding in the field,” says Jack Little, MD, President of Radia.

#

Radia is the largest private radiology/vascular practice in the Pacific Northwest. Radia’s board-certified physicians provide professional services in diagnostic imaging, interventional radiology, and vascular testing and surgery. A broad range of services, including CT, MRI, PET/CT, nuclear medicine, pain management, dental imaging, ultrasound, echocardiography, breast MRI, and teleradiology, are provided in multiple hospital-based and free-standing clinic locations throughout Washington State.
