

Insurance Pre-Authorization Update 4 - October 2013

Beginning October 1st, 2013, All Insurance Plans That Utilize AIM will Allow Radia Imaging Centers to Obtain RQI's

Insurance plans currently included:

- Premera
- Providence
- Lifewise
- Regence
- Asuris NW Health
- Pacificsource

What you need to do

When your patient with any of the above insurance plans is scheduled for an MRI or CT, the Radia Imaging Center preauthorization specialist will send you a fax asking for your **Tax ID number** and a few pertinent pieces of information about your patient. You will need to fax this sheet along with any **relevant chart notes** back to the imaging center. We will do all the rest!

What if you want to do the auth yourself?

You can still do the authorizations through AIM yourself. Please just note the **RQI number** on the referral or make a note on the referral stating: *office will obtain the authorization.*
